

A Report from Organizing Coordinator of Industry Expert Talk

On 26th October, 2019 an Industry Expert Talk was organized by the department of Mechanical and Industrial & Production Engineering of Assam Engineering College. It was basically arranged for 7th semester B.E. students of the department. The talk was delivered by Mr. Uddipta Das, *Product Design Engineer, R&D, Cummins Technical Centre, India*. The title of the talk was '**Cummins India Limited: An overview, skills and scope for Mechanical Engineers**'. The objective of the talk was to give a brief idea about Cummins India Limited. In the talk the fundamentals of diesel engine and its allied processes along with Cummins own design process in this regard were beautifully explained. An attempt was made to make the students aware of current technology and the skills that they should develop to enhance their capability for working in Cummins like industries. In the session, Mr. Das answered questions that came from the students. Later, after the talk he was felicitated with a certificate of appreciation.

A Report on One Day Industry Expert Talk

An Industry Expert Talk was organized by the Department of Mechanical Engineering and Industrial and Production Engineering on 26th October, 2019 under TEQIP III. Mr. Uddipta Das, Product Design Engineer, R&D, Cummins Technologies India Private Limited was invited as the Industry Expert. Mr. Das did his M.E. degree from the Department of Mechanical Engineering, Assam Engineering College. He delivered a very nice and informative talk on the topic ***“Cummins India Limited- Overview: Skills & Scope for Mechanical Engineering”***. In the event there were about 70 students including both from Mechanical Engineering and IPE Department. The faculty members were also present. After the lecture, the students interacted with Mr. Das and discussed about their queries. Overall the event was a great success and the students learnt a lot from the expert about the new technologies and their application in the engineering field.
