About the FDP

Sustainable innovation integrates sustainability with technological advancement to help budding entrepreneurs to balance profitability with environmental responsibility. This FDP will provide an opportunity to understand how new ventures can adopt responsible business practices to create business models. The FDP is aimed to encourage educators and scholars to inspire future entrepreneurs in building innovations and new ventures that can achieve success while minimizing negative impacts on society and the environment.

About the Institution

Assam Engineering College (AEC) is a premier institution in Assam that was established in 1955 and is the first Engineering College of Assam. It is affiliated to Assam Science and Technology University. It has a rich legacy of producing capable engineers that contribute to various industry and academic institutions. It has NBA accreditation for five undergraduate Engineering programs including Mechanical Engineering that reflects its quality of education and institutional standards.
